DETAILED ACTION

1. Claims 16-28 are pending. Claims 1-15 have been cancelled.
2. Based upon the response filed December 4, 2006 and December 5, 2006, the rejections based upon 35 U.S.C. 112, 2nd, 35 U.S.C. 103 (a), and nonstatutory double patenting are withdrawn.
3. Based upon the response filed December 4, 2006 and December 5, 2006, the improper Markush objection is withdrawn. The restriction requirement is withdrawn.

The compound of claim 16 is examined as a whole.

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 23-28 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for certain diseases and disorders, does not reasonably provide enablement for the "treatment or prophylaxis for maintaining health and prolonging life using a compound of formula I". The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to practice the invention commensurate in scope with these claims.

The recitation of the phrase "maintaining health and prolonging life" is broader than the scope of enablement. While the specification provides a method of treating diseases and disorders, the specification fails to teach how these compounds are useful for maintaining health and prolonging life. See claim 23.

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 1625

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

7. Claims 23-28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A. Claims 23-27 improperly depend upon claim 1, which is cancelled.

B. At claim 25, the recitation of the phrase "such as" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention.

C. Claim 28 improperly depends upon claim 8, which is cancelled.

8. Claims 16-22 are allowed.

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

10. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
